

Fruit Tree Pollination

APPLES

Apples need a pollinator.

Use at least 2 varieties that bloom at the same time for best fruit yield. Pollinators should be within 100 feet of each other.

CHERRIES

Most Sweet Cherries require a pollinator. Use 2 sweet varieties for fruit yield.
Bing – Black Cherry. Fruit is very solid with wonderful flavor. Needs pollinator.
Black Tartarian – Large purplish black fruit. Heavy bearer. Needs pollinator.
Royal Ann – Rosy Yellow-Red fruit. Can't use Bing as pollinator.
Van – The best choice for a pollinator. Sweet red fruit.

Sour Cherries do not require pollinator.

Montmorency – Large, tart red fruit for pies or preserves. Highly productive.

Self Fertile

North Star – Red Fruit with small pit. Very productive sour pie cherry. Self fertile.

PEACHES

Peaches do not need a pollinator.

Belle of Georgia – Large Fruit is highly flavored – good for eating fresh.

Elberta – Large fruit is blushed with red – very juicy

Red Haven – Early peaches. Fruit is medium sized. Good for freezing and canning.

PEAR

Pears need an pollinator (any other variety).

Bartlett – Medium sized fruit that ripens to yellow.

Sweet fruit is good for eating fresh.

Moonglow – Early ripening. Excellent for fresh use or canning. Very hardy

Keiffer – Mid Fall ripening. Abundant large fruit with red blush. Disease resistant.

Ayers – Yellow with red blush. Very sweet

Asian Orient – Yellow fruit. Very sweet – ideal for salads and desserts.

PLUM

Pollinator is needed (any other variety)

Ruby Sweet – Yellow-red fruit. Sweet flavor.

Santa Rosa – Amber fruit. Tart flavor.

Methley – Sweet mild tasting. Deep red colored fruit.

APRICOTS

Apricots do not need an pollinator

SMALL FRUITS

Blackberry: no pollinator required

Blueberries: require a pollinator (any other variety)

Currant: No Pollinator Required

'Red Lake': The cold hardiest currant. Red, sweet fruit for deserts and wine.

Grapes: no pollinator required

Kiwi: Pollinator Required.

'Anna': Smooth, grape sized fruit that is flavorful and sweet

'Meader': Male pollinator for 'Anna'
